OUR HISTORY

The timeline of our story

1993

We began as a Pre-Press Service Bureau providing digital color separations for the offset print industry.

2001

The company began printing 16' wide Grand Format graphics for the Olympics and never looked back.

2007

Company commitment to Green production fabric and biodegradable printing.

2015

SEG Aluminum Frame fabrication and lighting department was established as SEG Warehouse

Today

Today, Design To Print specializes in creating immersive experiences through Event and Trade show activations, as well as Interior Decor and Fabrication.

ACHIEVEMENTS**

OUR DIVERSE CLIENTELE

Our passion for graphics excellence is driven by our client's expectation of perfection! As your partner, we hold ourselves to the highest standard, on every project, and give our "all" to make you look good.

Two Core Departments, One Innovative Agency.

SEG Warehouse was formed as the custom design and construction division of Design To Print. This department alone employs CAD designers, Tig & Mig welders, fabricators, CNC operators, and installation crew.

Together, Design to Print and SEG Warehouse are an award-winning print manufacturing and structure fabrication company producing world-class, unique products and services nationwide.

FROM START TO FINISH

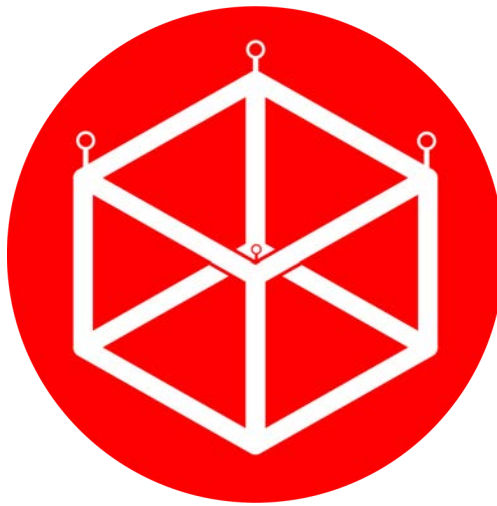

It's hard for companies to make a statement without the right visual solutions. That's why DTP is your "one-stop shop" for all things print and design.

TRADE SHOW & EVENTS

SEG Framing Systems
(Silicone Edge Graphics)

Lighting

Hanging Structures

Partnering with clients for decades to bring trade shows to life.

From a simple SEG wall to a fully customized booth or structure, we are here to make your event or trade show look cutting edge.

Located right in the middle of the Trade show Hub of the world: Las Vegas. Being minutes away from the biggest convention centers, we're capable of producing your last minute requests.

“

"Our booth was the most prominent at the show. Every 20 minutes during setup someone would stop and ask questions, who, what and how...

Appreciate you putting up with our late requests and making us look good. We had other exhibitors request our info to set their booth next year. Thanks a million!!!!"

- Will B.

PATIENTS

Rigel

DTP had roughly 7 days to build the frame and skin this prior to the client needing to get this to show floor. Two other vendors had told our client that this was not possible. Here it is done and complete on time and the client was thrilled.

Drug Interactions
Concomitant use of Trisuvale with other antiretroviral agents may increase exposure to the major active metabolite, dolutegravir, and may increase the risk of adverse effects. Advise patients to avoid concomitant use of Trisuvale with other antiretroviral agents unless otherwise indicated. See the full prescribing information for Trisuvale for more information on drug interactions.

SUPPORT THE ASH FOUNDATION
Complete the Trisuvale Challenge and Rigel will donate \$10,000 to the Ash Foundation on your behalf!

SHOW DECORATING

Way-finding Signage

Grand Entry / Registration

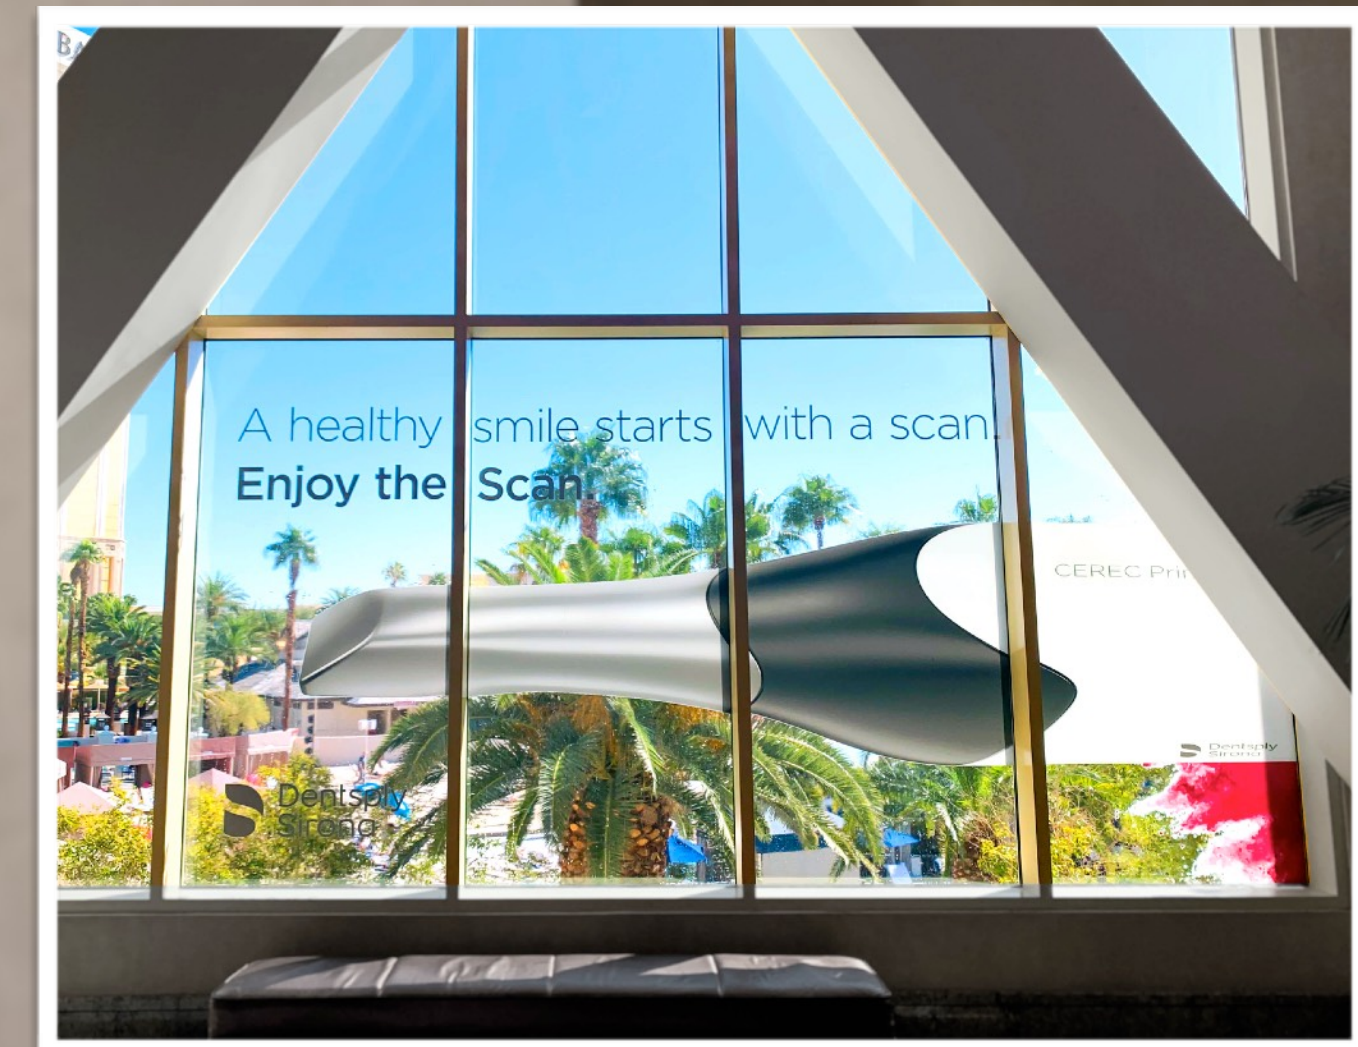

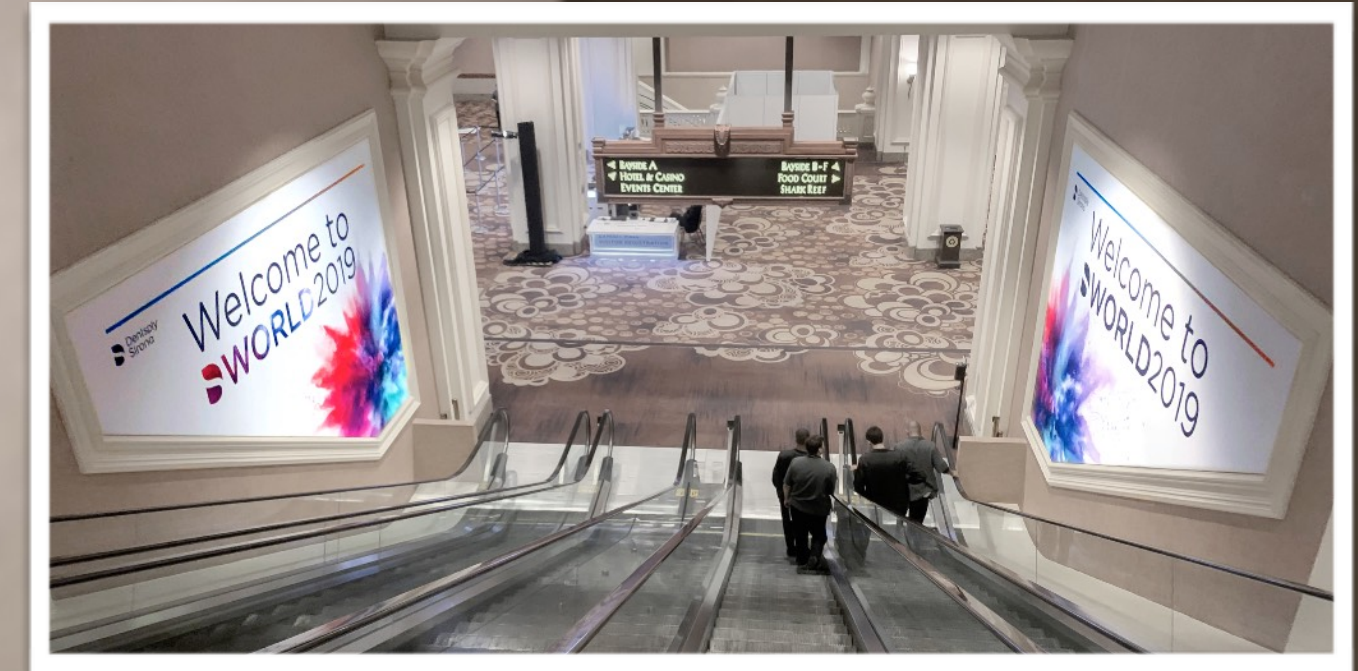

Full logistics & installation

Decorating a show is essential. Before the exhibitors and attendees ever step foot into an event, decorators have to properly set the stage. Aisle markers, registration booths, facility welcome badging all need to be created and installed to welcome all to your event.

General Registration

DENTSPLY SIRONA
SWORLD
2019

Dentsply

Design To Print was contacted to decorate a Dental convention at the Mandalay Bay Convention Center in Las Vegas, NV. All deliveries and installation had to take place over 2 days, each day our teams could only work from 12:30pm-5:30am. The complexity of installation was due to one of the largest vehicle auctions in the world taking place at the same time. With no access to parking and general loading/unloading, Design To Print with its long standing relationships in Las Vegas were able to navigate the situation and deliver on-time and on-budget.

EXPERIENTIAL TAKEOVERS

Environmental Fabrication

Branding Experiences

Customizable Spaces

Immersive brand experiences leave a lasting impression.

Creating an experience that endures your brand to its customers is one of the most valuable engagements possible.

Working with only an idea our team can bring “concept to completion” services to fabricate a custom experience to ship and set anywhere in the world.

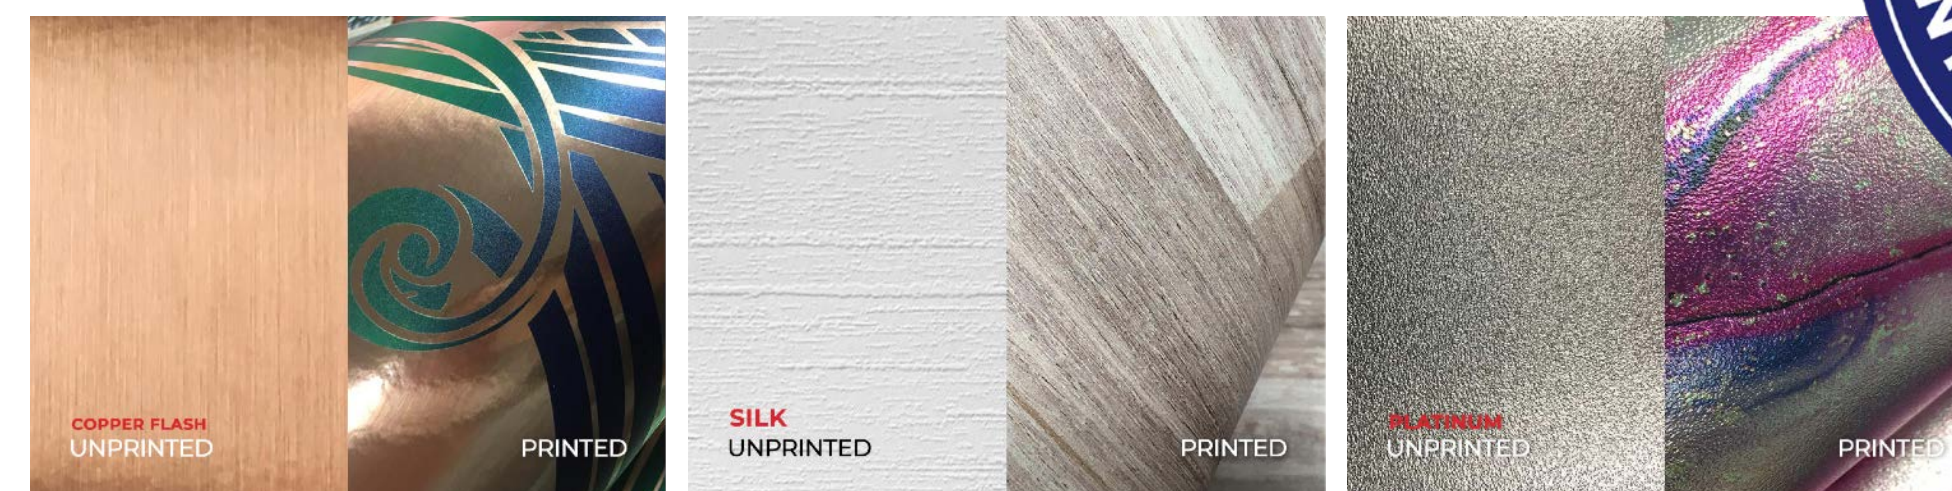

Empowering Designers to Create Custom Decor

Can't find the right pattern, or have a unique design theme? Want to bleed an image off the wall to the sofa? Why not? Take full control of your interior design vision, and print custom graphics with DTP's interior decor line.

Our "HD" fabrics have been Wyzenbeek tested which ensures extreme durability. Our fabrics are all Class 6 rated for Soil and Stain resistance.

All wall coverings are Type II commercial grade for long term durability and easy installation.

Design To Print is a proud Dreamscape Print Provider.

Restaurant Takeover

During a convention at the Sands Expo center in Las Vegas, NV our client wanted to take over a restaurant to give a one on one “Experiential” retreat to clients. The ask was to completely take over a restaurant after “last call” closing on a Friday night (busiest night of the week). By 5am have the entire experience complete in and outside of the restaurant + ready for clients at Breakfast. Highlight was sampling the specially prepared breakfast cuisine that was to be served to the clients after we left. Compliment to the Chef!

RETAIL EXECUTION

Fabric Graphics & Lightboxes

Vinyl Adhesive Solutions

Rigid Solutions

We have been partnering with companies big and small, supplying the finest, high quality grand format signage in the industry.

We treat your brand the same way we treat our own because we know it is your most important asset!

WE BELIEVE IN PARTNERS, NOT CLIENTS

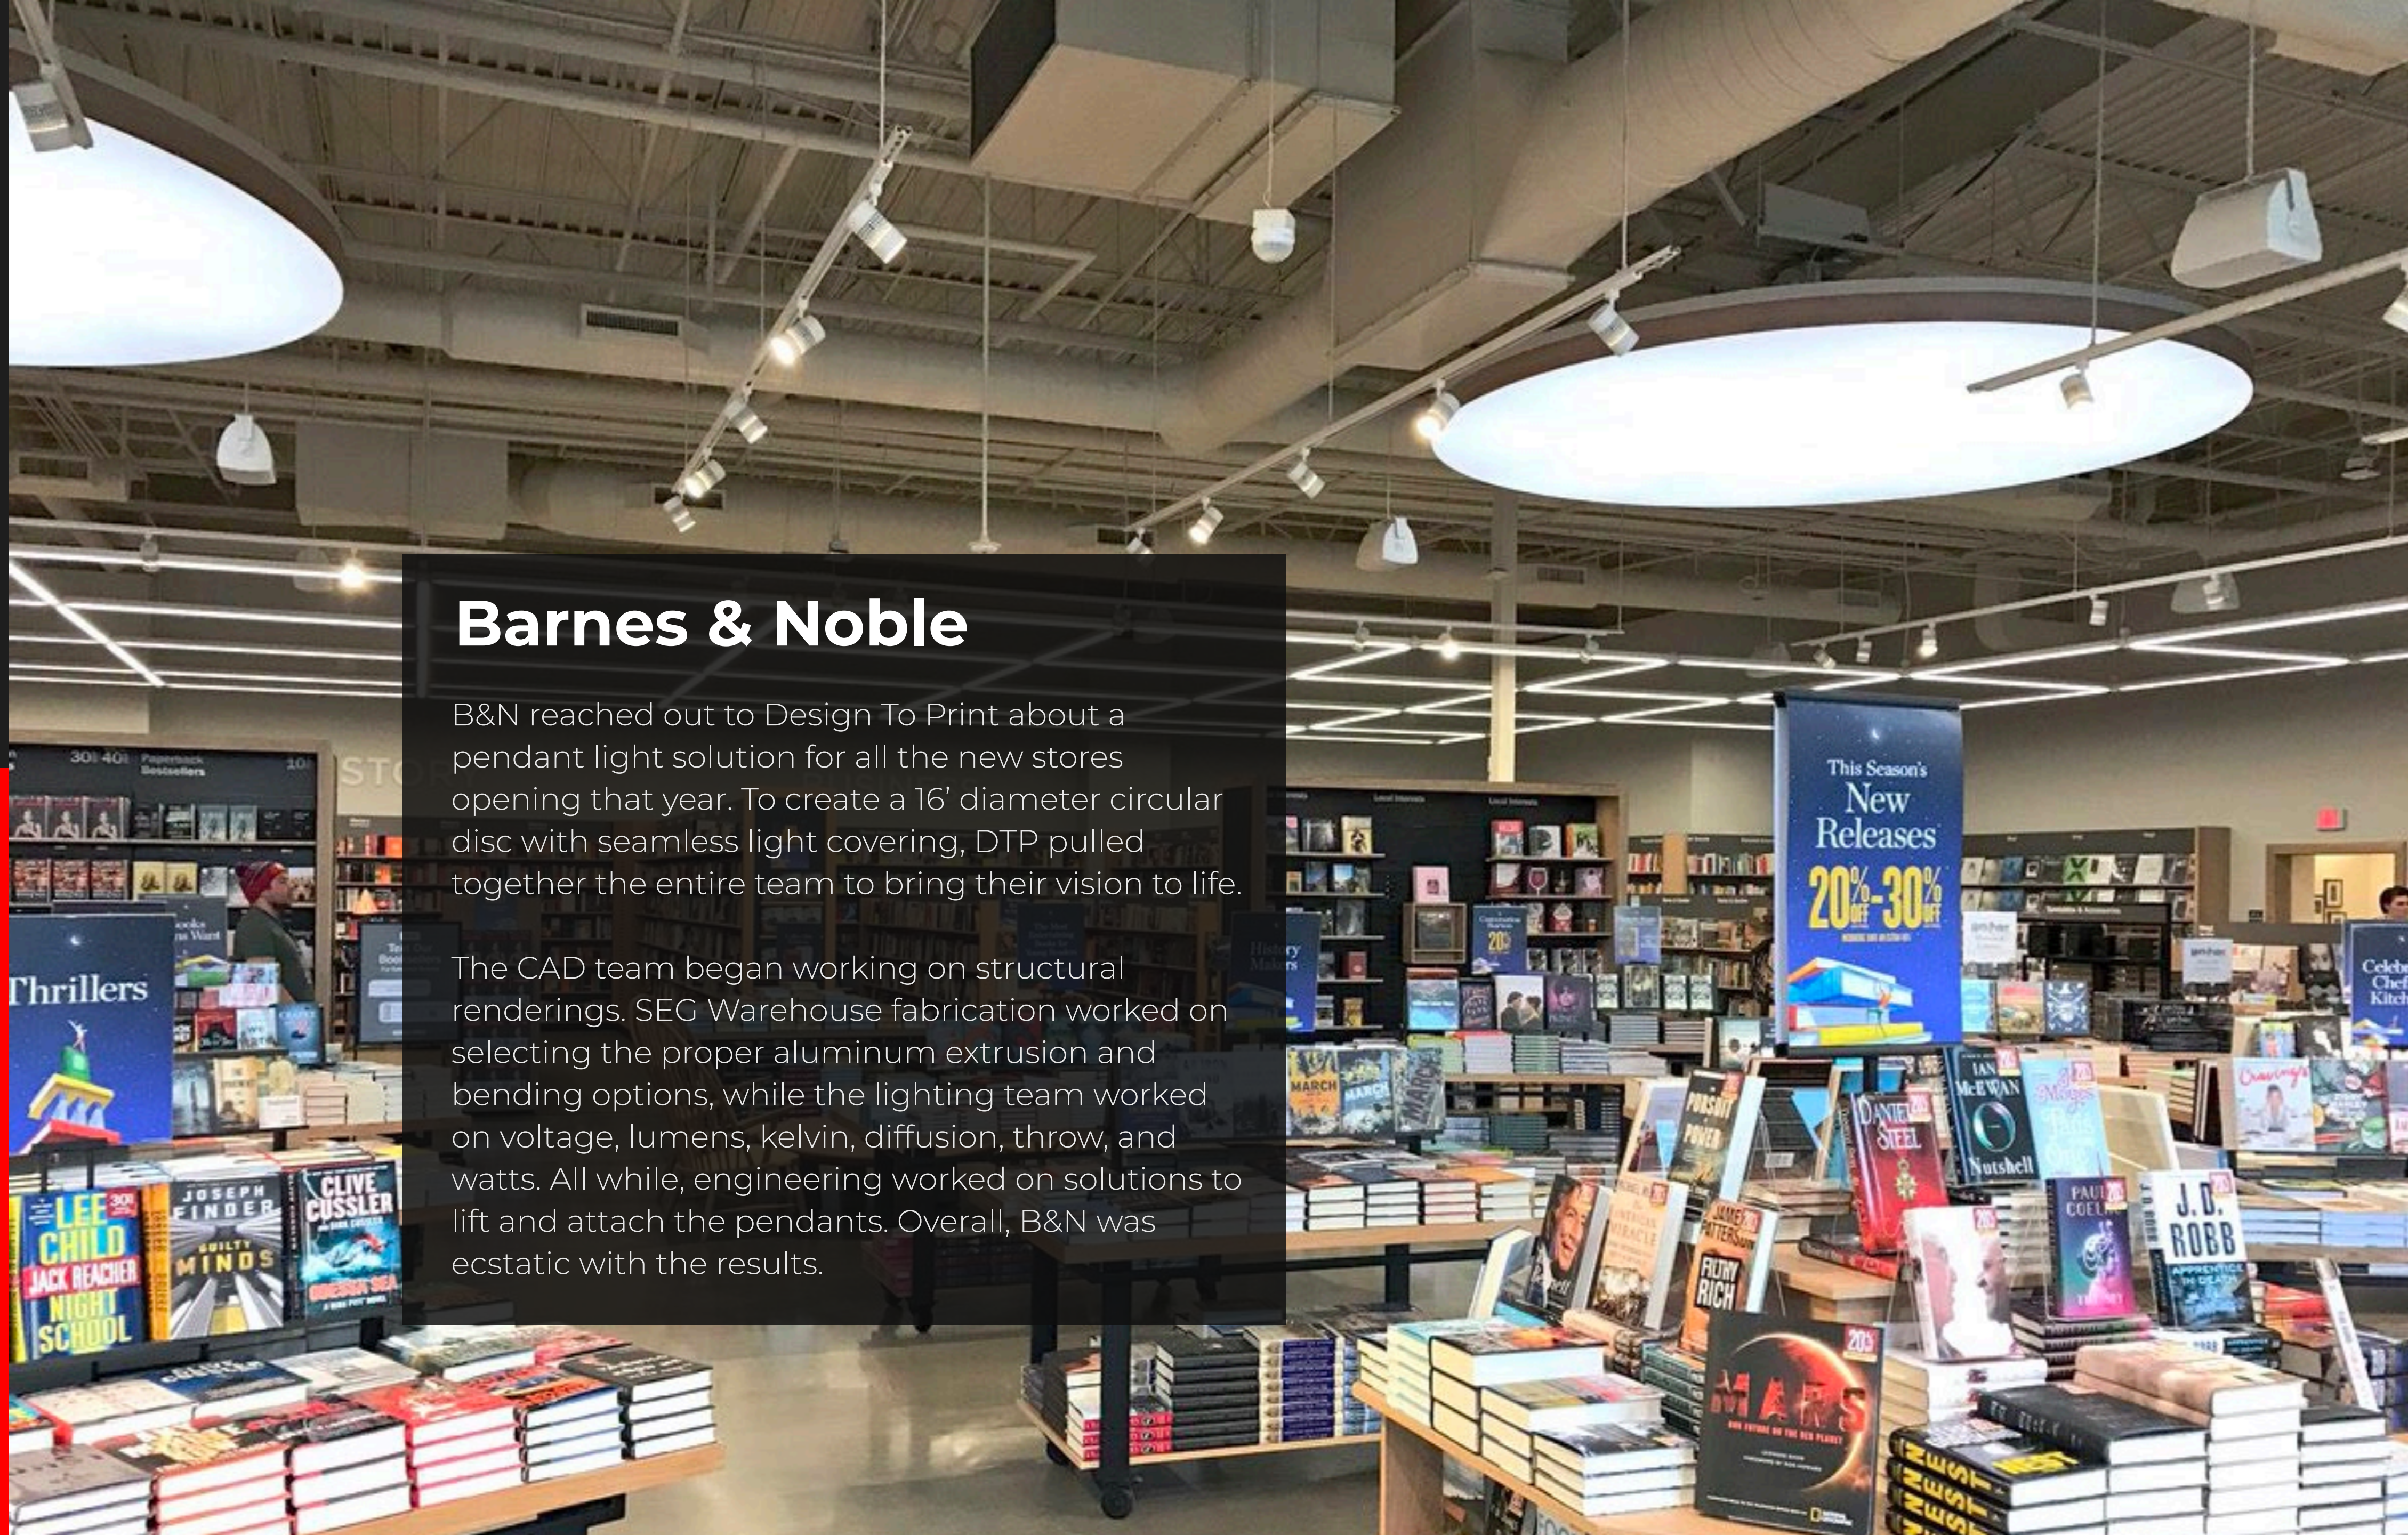

Because if you don't look good, we don't look good.
~Vidal Sassoon

Barnes & Noble

B&N reached out to Design To Print about a pendant light solution for all the new stores opening that year. To create a 16' diameter circular disc with seamless light covering, DTP pulled together the entire team to bring their vision to life.

The CAD team began working on structural renderings. SEG Warehouse fabrication worked on selecting the proper aluminum extrusion and bending options, while the lighting team worked on voltage, lumens, kelvin, diffusion, throw, and watts. All while, engineering worked on solutions to lift and attach the pendants. Overall, B&N was ecstatic with the results.

FOR THE TRADE

Wholesale printing

Fulfillment

Blind Shipping

Keep money coming in, even when you can't process the job.

Franchise sign companies often don't have the ability to produce high quantities of their products or even the ability to print specialty options. Design To Print can not only offer to do the job at a competitive wholesale price, but to blind ship straight to the client. All parties get what they need in the end: the sign company gets the job, and their client is satisfied - all with the help of DTP.

TESTIMONIAL

FastSigns

"Design To Print is our go-to wholesaler when we cannot produce a job in-house. All of their products are top quality, and Stephanie Smith is always professional and accommodating. Their wholesale pricing is very competitive in our market even when we add our margins. They are very quick and provide 1-2 day shipping which keeps our promise of fast and high quality products."

-The team at FastSigns, Las Vegas West
